

NY-ESO-1, A*0201 restricted

Product information

Catalog no. 1095

Quantity: 1.0 mg

Description:

This peptide is derived from the tumor associated antigen, NY-ESO-1, a commonly expressed tumor antigen of the cancer-testis family. The sequence for this peptide is SLLMWITQC from residues 157-165 and it binds to HLA-A*02:01

Sequence: SLLMWITQC

Storage: Store frozen at \leq minus 20°C

Solubility: The peptide is readily soluble in DMSO (dimethylsulfoxide).
